All Run Down **Now Feels Fine**

Eatonic Ended His Troubles

"Entonic is the only thing I have found to stop my heartburn and I think it has been a great help in nervous spells," writes G. C. Johnson,

An upset stomach may cause lots fuffering all over the body. Eatonic helps in such cases by removing the cause of the misery, because it takes up and carries out the excess acid and gases and keeps the digestive organs in natural working order. A lablet after meals is all you need. Big box costs only a trifle with department of the costs only a trifle with druggist's guarantee.

the wreng idea.

This is an age of specialists, and this is demonstrated in almost all phases of life. The medical profession is a fine illustration of specialization. In olden times the doctor did almost everything from pulling a tooth to amputating a limb, and everything between; not so to-day for we have in the exercise to the content of the cont ment to which the human flesh is heir. The same thing is true of the school, of business and manufacturing. More and more we are developing the specialist, and the result is that there is a far greater efficiency than formerly. While the development of the specialist (the man who can do the one thing well) in the various phases of professional and business life is of very great importance, there is something vastly more important there is something vastly more importante, than this, and the Great Apostle indicated what this most important thing is when He wrote "This one thing I do."

when He wrote "This one thing I do."

He did other things, but the "one things that he referred to was the serving of Jesus Christ with all of His powers, and the record tells us how well He did this one thing. God expects that we as men shall attend to this first and foremost, and unless we do life cannot be a success: in other words, we must put first things first, and the first things in importance is serving God in our profession or business, and unless we do this, no matter how successful we are in our
